.....
Thanks Nancy,

Can you clarify exactly what the EPA Office of R&D does?

Best Regards,

Scott Smith

Subject: FW: ord product verification

Hi Ben and Scott,

We checked in with our EPA Office of Research and Development (ORD) and learned that this isn't something that ORD typically does, nor does our Office of Water. . ORD suggested that Water Defense reach out to the organizations that develop the Standard Methods for the Examination of Water and Wastewater.

Here's a link to the website:<https://www.standardmethods.org/>

The organizations that develop these methods are the American Public Health Association, the American Water Works Association, and the Water Environment Federation.

Thanks

ng

Nancy Grantham
